Green passport
Sport socks

Material

Main fabric: organic cotton

Design: Colored pattern integrated into the knit

Packaging: Full-color cardboard header card (recyclable)

Production

Made in Portugal, within the EU, ensuring fair labor standards and reduced transport emissions.

Packaging

Minimal packaging using recyclable materials, minimalizing the use of plastic

Transport

Produced and packed in the EU. Transport optimized to minimize emissions—no intercontinental shipping required.

Environmental impact

Organic cotton is grown without harmful pesticides or synthetic fertilizers, resulting in a lower ecological footprint and improved soil health. Local EU production reduces the product's carbon footprint and supports ethical labor practices.

End of Life

The socks are long-lasting and washable. Cotton is biodegradable. The cardboard header card can be recycled with paper waste.

Why it's green

Made from certified organic cotton

Produced within the EU under fair labor conditions

Recyclable packaging

Biodegradable main material
